

Ho`owala`au wa`a - canoe talk.

Ha`awina (lesson)

If *Na Ho`okele* (steerers) use the same language for commands universally, there will be little or no confusion on the part of the paddlers. These commands can and should be used to familiarize the crew with the language. The same language used consistently also gives *Ho`okele* (steerer) control of the canoe and used to the idea of giving commands.

UNE = pronounced OO-NAY. To "lever." This is the action MUA (stroker and sometimes others) takes to help HO`OKELE (steerer) turn the bow of the canoe going around the turn flag. This can be ANY movement of the paddle, from a J-stroke to paddling toward the hull. I have heard this term mis-pronounced UNI = OO-NEE. This word is not in the Hawaiian dictionary.

KAHI = pronounced, KAH-HEE. To "cut." Holds the paddle still, blade "cutting" in the same line as the canoe. No "action" taken.

PAHI = pronounced PAH-HEE. Edge, the blade or knife edge.

These are commands that can be used by Ho`okele in the canoe.

HO`OMAKAUKAU! = pronounced Hoh oh MAH cow cow. Get ready or get set! This can be whatever you think "get set" means. Paddle across the gunwales, or poised to plant the blade in the water or whatever.

KAU! = pronounced kah oo. Place (or plant) the blade!

If it's training: **HOE** = pronounced ho aee. Paddle! And off you go.

If it's racing: **HUKI!!!!!!!!!!!!** = pronounced hoo key. Pull, GET INTO IT!

All of the following terms are from either **Hawaiian Dictionary** by Pukui & Elbert or **The Hawaiian Canoe** by Tommy Holmes

Many of these terms have other meaning as well as allegorical meanings or *Kaona* (the hidden meaning) other than used here.
